

Susanna F. de Rezende

CONTACT	Email: rezende@math.cas.cz
INFORMATION	Homepage: https://users.math.cas.cz/~rezende/ Address: Institute of Mathematics AS CR, Žitná 25, 115 67 Praha 1, Czech Republic
CURRENT POSITION	Postdoc at the Institute of Mathematics of the Czech Academy of Sciences in Prague, Czech Republic hosted by Professor Pavel Pudlák with a grant from the Knut and Alice Wallenberg Foundation
RESEARCH INTERESTS	Computational complexity, proof and circuit complexity, communication complexity, graph theory and algorithms
EDUCATION	School of Electrical Engineering and Computer Science, KTH Royal Insti- tute of Technology, Stockholm, Sweden Ph.D. in Theoretical Computer Science, August 2014 – August 2019 <ul style="list-style-type: none">◦ PhD Thesis: Lower Bounds and Trade-offs in Proof Complexity◦ Advisor: Prof. Jakob Nordström Institute of Mathematics and Statistics, University of São Paulo, Brazil M.Sc. in Computer Science, March 2012 – May 2014 <ul style="list-style-type: none">◦ Master's Dissertation: Longest Paths in Graphs◦ Advisor: Prof. Yoshiko Wakabayashi◦ Funding: Grant from Fapesp 11/16348-0 B.Sc. in Computer Science, February 2008 – December 2011 <ul style="list-style-type: none">◦ GPA 8.8 (out of 10)◦ Scientific Initiation Scholarship, August 2009 – February 2012<ul style="list-style-type: none">◦ Title: <i>Topics in Combinatorics and Graph Theory</i>◦ Advisor: Prof. Yoshiko Wakabayashi◦ Funding: Grants from CNPq 116402/2009-1, 123740/2010-0, 800430/2011-5
POSITIONS	Simons Institute for the Theory of Computing, Berkeley CA, USA Research Fellow, January – May 2021 <ul style="list-style-type: none">◦ Program: Satisfiability: Theory, Practice, and Beyond Institute of Mathematics of the Czech Academy of Sciences, Prague, Czech Republic Postdoc, January 2020 – December 2021 <ul style="list-style-type: none">◦ Host: Professor Pavel Pudlák◦ Funding: Grant from the Knut and Alice Wallenberg Foundation

Simons Institute for the Theory of Computing, Berkeley CA, USA

Research Fellow, August – December 2018

- Program: Lower Bounds in Computational Complexity

AWARDS AND HONORS

- Featured as one of the “rising stars” women in TCS at STOC 2020 – June 25, 2020
- Prize for Excellent Doctoral Dissertation 2018/2019 awarded by Stockholm Mathematics Centre (SMC).
- M.Sc. thesis selected among the top 10 in Brazil in the area of Computer Science in 2014 by the Brazilian Society of Computation (SBC)
- B.Sc. degree awarded Honorable Mention for Outstanding Achievement, Apr 2012
- Gold Medal in the V National Symposium of Scientific Initiation held at the Institute of Pure and Applied Mathematics (IMPA), Rio de Janeiro, Nov 2010

SELECTED INVITED TALKS

- Mar 2021 50 Years of Satisfiability, Simons Institute, Berkeley CA, USA
- Mar 2021 Theoretical Foundations of SAT/SMT Solving, Simons Institute, Berkeley CA, USA
- Feb 2021 Oxford-Warwick Complexity Meetings, UK
- Oct 2020 TCS+ seminar
- Jun 2020 TCS Women Rising Stars workshop at STOC '20
- Jan 2020 Proof Complexity, BIRS, Canada
- Jul 2019 Algebraic Techniques in Computational Complexity, BIRS, Canada
- May 2019 Gödel Lecture special session, ASL North American Annual Meeting, New York City NY, USA
- Nov 2018 Google, Mountain View CA, USA
- Sep 2018 Boolean Devices, Simons Institute, Berkeley CA, USA
- Aug 2018 Theory and Practice of Satisfiability Solving, CMO, Mexico
- Aug 2017 Proof Complexity and Beyond, Oberwolfach, Germany

INVITED WORKSHOPS

- Dagstuhl Seminar 20061 - SAT and Interactions – held at Dagstuhl, Germany, February 2 - 7, 2020
- Proof Complexity – held at Banff International Research Station (BIRS), Canada, January 19 - 24, 2020
 - Presentation: Lifting with Simple Gadgets and Applications to Circuit and Proof Complexity
- Algebraic Techniques in Computational Complexity – held at Banff International Research Station (BIRS), Canada, July 7 - 12, 2019
 - Presentation: Lifting with Simple Gadgets and Applications to Circuit and Proof Complexity
- Theory and Practice of Satisfiability Solving – held at Casa Matemática Oaxaca (CMO), Mexico, August 26 - 31, 2018
 - Presentation: Clique is Hard for State-of-the-Art Algorithms
- Proof Complexity and Beyond – held at Mathematisches Forschungsinstitut Oberwolfach, Germany, August 13 - 19, 2017
 - Presentation: Clique is Hard on Average for Regular Resolution
- Dagstuhl Seminar 14421 - Optimal algorithms and proofs – held at Dagstuhl, Germany, October 12 - 17, 2014

OTHER ACTIVITIES

- Local organizer of Future Digileaders, Stockholm, November 2019

- Main organizer of the [Rising Stars at KTH workshop](#), April 2019
- Co-initiator and committee member of the [Women PhD Candidates at KTH network \(WOP@KTH\)](#), 2016–2019
- Main organizer of career-development seminar and workshop at KTH, April 2017

LANGUAGE	English, Portuguese and Spanish	Fluent
PROFICIENCY	Swedish and French	Intermediate
	German and Czech	Basic

RESEARCH PAPERS	<ol style="list-style-type: none"> 1. Susanna F. de Rezende, Massimo Lauria, Jakob Nordström, and Dmitry Sokolov. The Power of Negative Reasoning. To appear in <i>Proceedings of the 36th Annual Computational Complexity Conference (CCC '21)</i>, July 2021. 2. Susanna F. de Rezende, Mika Göös, Jakob Nordström, Toniann Pitassi, Robert Robere, and Dmitry Sokolov. Automating Algebraic Proof Systems Is NP-Hard. In <i>Proceedings of the 53rd Annual ACM Symposium on Theory of Computing (STOC '21)</i>, pages 209–222, June 2021. (ECCC) 3. Susanna F. de Rezende. Automating Tree-Like Resolution in Time $n^{o(\log n)}$ Is ETH-Hard. To appear in <i>Proceedings of the 11th Latin and American Algorithms, Graphs and Optimization Symposium (LAGOS '21)</i>, May 2021. (ECCC) 4. Susanna F. de Rezende, Or Meir, Jakob Nordström, Toniann Pitassi, and Robert Robere. KRW Composition Theorems via Lifting. In <i>Proceedings of the 61st Annual IEEE Symposium on Foundations of Computer Science (FOCS '20)</i>, pages 43–49, November 2020. (arXiv, ECCC) 5. Susanna F. de Rezende, Or Meir, Jakob Nordström, Toniann Pitassi, Robert Robere, and Marc Vinyals. Lifting with Simple Gadgets and Applications to Circuit and Proof Complexity. In <i>Proceedings of the 61st Annual IEEE Symposium on Foundations of Computer Science (FOCS '20)</i>, pages 24–30, November 2020. (arXiv, ECCC) 6. Susanna F. de Rezende, Jakob Nordström, Dmitry Sokolov, and Kilian Risse. Exponential Lower Bounds for Weak Pigeonhole Principle and Perfect Matching Formulas over Sparse Graphs. In <i>Proceedings of the 35th Annual Computational Complexity Conference (CCC '20)</i>, volume 169, pages 28:1–28:24, July 2020. (ECCC) 7. Susanna F. de Rezende, Or Meir, Jakob Nordström, and Robert Robere. Nullstellensatz Size-Degree Trade-offs from Reversible Pebbling. <i>Computational Complexity</i>, volume 30, article 4, February 2021. Preliminary version in <i>CCC '19</i>. (ECCC) 8. Albert Atserias, Ilario Bonacina, Susanna F. de Rezende, Massimo Lauria, Jakob Nordström, and Alexander Razborov. Clique Is Hard on Average for Regular Resolution. To appear in <i>Journal of the ACM</i>, 2021. Preliminary version in <i>STOC '18</i>. (arXiv)
